STENNER PUMP ADVANTAGES

- ▶ Self-priming
- ▶ Can inject off-gassing solutions
- ▶ Easy tube replacement without tools
- ▶ 3 point roller assists anti-siphoning
- ▶ Output reproducibility
- ▶ Output volume not affected by back pressure
- ▶ Tube lubrication not required
- ▶ No vapor lock or loss of prime
- ▶ Foot valve not required to prime

Quick Facts

CLASSIC 45

- Single head, adjustable or fixed output
- 0.2 to 22.0 gpd, pressures to 100 psi maximum
- 0.2 to 50.0 gpd, pressures to 25 psi maximum
- 26 rpm

CLASSIC 85

- Single head, adjustable or fixed output
- 0.3 to 40.0 gpd, pressures to 100 psi maximum
- 0.3 to 85.0 gpd, pressures to 25 psi maximum
- 44 rpm

CLASSIC 100

- Double head, adjustable or fixed output
- 0.3 to 20.0 gpd, pressures to 100 psi maximum
- 0.3 to 100.0 gpd, pressures to 25 psi maximum
- 26 rpm

CLASSIC 170

- Double head, adjustable or fixed output
- 0.5 to 34.0 gpd, pressures to 100 psi maximum
- 0.5 to 170.0 gpd, pressures to 25 psi maximum
- 44 rpm

Features

- Advantages of Stenner peristaltic pumps on page 1
- Fast tube replacement without tools with patented QuickPro® pump head
- Adjustable models:
 - External adjustable dial ring on feed rate control
 - 20:1 turndown, 2.5% increments
- Single head models:
 - Available as Tank Systems: 7.5, 15, 30 gallon
 - Fixed output pump can be utilized for proportional dosing, refer to pages 54-57
- Components are interchangeable between models
- Tank System ships pre-assembled for quick installations

Versatile and Time-Tested

For over 60 years, the versatile peristaltic Classic Series remains a popular choice with installers. The pump is easy to service or convert to another model. Injection can be directly into the water line. Pump can be activated by a pressure switch or controller.

Weights and Dimensions

Single Head Adjustable

Shipping Weight 9 lbs (3.9 kg)

Box Dimensions

13 x 8 x 10 in. (33 x 20 x 24 cm)

Product Dimensions

Single Head Fixed

Shipping Weight 8 lbs (3.4 kg)

Box Dimensions

13 x 8 x 10 in. (33 x 20 x 24 cm)

Product Dimensions

Double Head Adjustable

Shipping Weight 10 lbs (4.5 kg)

Box Dimensions

18 x 8 x 10 in. (46 x 21 x 25 cm)

Product Dimensions

Double Head Fixed

Shipping Weight 10 lbs (4.1 kg)

Box Dimensions

18 x 8 x 10 in. (46 x 21 x 25 cm)

Product Dimensions

Accessories Shipped with Each Pump

- 3 Connecting nuts 1/4" or 3/8"
- 3 Ferrules 1/4" or 6 mm *Europe*
- 1 Duckbill check valve 100 psi (6.9 bar) maximum or injection fitting 25 psi (1.7 bar) maximum
- 1 Weighted suction line strainer 1/4", 3/8" or 6 mm *Europe*
- 1 20' Roll suction/discharge tubing 1/4" or 3/8", white or UV black or 6 mm white *Europe*
- 1 Additional pump tube
- 2 Additional latches
- 1 Mounting bracket
- 1 Manual

Specifications

Flow Rate Output Control

Adjustable model: External dial ring

Reproducibility $\pm 2\%$

Maximum Working Pressure

25 psi (1.7 bar), 100 psi (6.9 bar)

Maximum Operating Temperature 125°F (52°C)

Maximum Suction Lift

25 ft (7.6 m) vertical lift, based on water

Motor Type 1/30 HP, shaded pole, class B

Shaft rpm (average maximum) 26 or 44

Duty Cycle Continuous

Maximum Viscosity 1500 Centipoise

Motor Voltage (Amp Draw)

120V 60Hz 1PH (1.7), 220V 60Hz 1PH (0.9),
230V 50Hz 1PH (0.9), 250V 50Hz 1PH (0.9)

Power Cord Type

120V 60Hz, 220V 60Hz: SJTOW
230V 50Hz, 250V 50Hz: H05VV-F

Power Cord Plug End

120V 60Hz NEMA 5-15P, 220V 60Hz NEMA 6-15P,
230V 50Hz CEE7/7, 250V 50Hz CEE7/7

Power Cord Length 6 ft (1.8 m)

Classification Indoor and suitable for Outdoor when installed with a Stenner Rain Roof part # MP90000

Materials of Construction

All Housings Polycarbonate

Pump Tube Santoprene® (FDA approved) or Versilon®

Check Valve Duckbill

Santoprene® (FDA approved) or Pellethane®

Pump Head Rollers Polyethylene

Roller Bushings Oil impregnated bronze

Suction/Discharge Tubing, Ferrules

Polyethylene (FDA approved)

Tube Fittings, Check Valve Fittings

PVC or Polypropylene (both NSF listed)

Connecting Nuts

PVC or Polypropylene (both NSF listed)

3/8" Adapter PVC or Polypropylene (both NSF listed)

Suction Line Strainer and Cap

PVC or Polypropylene (both NSF listed); ceramic weight

All Fasteners Stainless steel

Pump Head Latches Polypropylene

NOTE: Refer to the chemical guide for material compatibility.

Agency Listings

- WQA Listed, conforms to standard NSF/ANS 61 & 372 (excludes any model with a Versilon® tube).
- INTERTEK/ETL Sanitation Listed, Adjustable models conform to standard NSF/ANSI 50 (excludes any model with a Versilon® tube).
- INTERTEK/ETL Sanitation Listed, Fixed models conform to standard NSF/ANSI 50 only when used with standard NSF/ANSI 50 listed controllers.

S3N	30-Gallon White

NOTE: Duckbill check valve included with pumps rated 100 psi (6.9 bar) maximum.

NOTICE: The information within these charts is solely intended for use as a guide. The output data is an approximation based on pumping water under a controlled testing environment. Many variables can affect the output of the pump. Stenner Pump Company recommends that all metering pumps undergo field calibration by means of analytical testing to confirm their outputs. To reduce feed rate control wear, select the pump with a maximum flow rate output that most closely matches your application's maximum need.

Digital Keypad

SVP4

Quick Facts

- 0.3 to 40.0 gpd, pressures to 100 psi maximum
- 0.3 to 85.0 gpd, pressures to 25 psi maximum
- Digital keypad with LED display
- 20:1 turndown, 1% increments, non-scalable

SVP1 Models

- Manual output control

SVP4 Models

- Automatic output control via 4-20mA signal or manually adjusted

Well-Suited for Industrial Applications

The SVP series is an adjustable, variable speed, peristaltic metering pump suitable for industrial applications, municipal and wastewater treatment plants. The pump can accept a 4-20mA signal from a water treatment control such as a pH or ORP monitor to pace the pump to maintain proper water chemistry and treat effluent discharge water. The output is adjusted by increasing or decreasing the motor speed.

Manual or 4-20mA Input

The SVP is categorized with two different pump prefixes, SVP1 and SVP4. The SVP1 is manually adjusted using the keypad. The SVP4 is designed to respond directly to a 4-20mA input signal from water treatment controls. The SVP4 is equipped with an external port to accept the signal or it can be set to a manual mode and adjusted with the arrows on the keypad.

Features

- Advantages of Stenner peristaltic pumps on page 1
- Fast tube replacement without tools with patented QuickPro® pump head
- DC motor
- Motor and pump head detachable without tools
- Rugged polycarbonate housing
- Heavy duty gear motor
- 4 button keypad: prime, on/off, up & down arrows

Weights and Dimensions

Shipping Weight 10 lbs (4.5 kg)

Designed for Demanding Applications

The S Series is a peristaltic metering pump built to NEMA 4X for demanding applications. Select from multiple operational modes and performance indicators that can interface with process control systems utilizing a 4-20mA output signal and three relay outputs. Program the pump for your application with the control panel with OLED display.

Contact the factory for additional voltage and plug options.		O.D. does not affect output.		Refer to the chemical guide for material compatibility.	

NOTE: Ball check valve included with S Series S40 models.

NOTICE: The information within these charts is solely intended for use as a guide. The output data is an approximation based on pumping water under a controlled testing environment. Many variables can affect the output of the pump. Stenner Pump Company recommends that all metering pumps undergo field calibration by means of analytical testing to confirm their outputs.

FIXED

VARIABLE

Quick Facts

FIXED

- 40.0 to 150.0 gpd, pressures to 25 psi
- 5.0 to 60.0 gpd, pressures to 100 psi

VARIABLE

- 2.0 to 150.0 gpd, pressures to 25 psi
- 0.3 to 60.0 gpd, pressures to 100 psi
- Backup pump capability
- Tube leak detector
- Totally enclosed housing, NEMA 4X
- Tube replacement without tools

Function

The Fixed and Variable pumps are both activated by mains power or by a Standby input.

FIXED

Operates at one speed when power is applied, or the standby input is removed. Does not have an on/off switch.

VARIABLE

Operates at the customer set speed when power is applied, or the standby input is removed (unless potentiometer is set to ).

Features

- Advantages of Stenner peristaltic pumps on page 1
- LED Indicators
- Dedicated Relays
- NSF 61 & 372
- cULus indoor/outdoor
- CE IP65
- NSF 50 (specific models)

4 LED Indicators

POWER	Solid green when mains power is connected.
LEAK	Blinking red when solution is present in the pump head.
RUN/FAULT	Solid green when pump is operating. Blinking red when pump has a drive fault.
STANDBY	FIXED Solid red, pump is in Standby when contact closure is on the Standby inputs.
STANDBY/OFF	VARIABLE Solid red, pump is in Standby when a contact closure is on the Standby inputs. Blinking red when potentiometer is set to  .

3 Dedicated Relays

LEAK DETECT

- Detects when solution is present in the pump head
- Red LED blinks
- Sends relay to indicate leak is detected
- Option to allow pump to continue to run

RUN

- Solid Green LED
- Sends relay to indicate pump is operating

TRANSFER

Sends relay from primary pump to transfer operation to a backup pump, if there is loss of power, a drive fault or a leak is detected.

S128 MEDICATOR

1:128 | Leak Detect | Repeater Relay

S128 Medicator

Control Panel

Quick Facts

- 10.0 ounces per minute, pressures to 60 psi max.
- 1:128 dosing
- Injects into system water flows up to 10 GPM
- 1 or 10 PPG and 1PPL water meter pulse settings
- Leak detect
- Built-in signal repeater
- Tube change timer

Speed Automatically Adjusts to the System Water Flow Rate

The S128 Medicator is a peristaltic metering pump designed to deliver at a ratio of 1:128; 1 ounce of product into a gallon of process water. The primary application is for injection of solutions commonly used in livestock production, particularly chicken, turkey, ducks and swine.

Activated by a dry contact pulsing water meter, the pump adjusts its speed when the system water flow increases or decreases to continuously maintain an even and proportional injection of product into the water line. The pump injects into system water flow rates up to 10 gallons per minute. The flow rate output capacity is up to 10 ounces per minute with pressures up to 60 psi.

The three pulse rate settings are the most common water meter pulse rates of 1 & 10 pulses per gallon and 1 pulse per liter. There are four LED indicators on the control panel for Leak/Fault, Overrun, Change/Level and Power/Standby. The adjustable potentiometer has prime, each pulse setting, reset tube timer and ⏻ (standby).

The leak detect feature can be set to stop the pump or let it continue to run when a leak is detected. The tube change timer can be set with the number of desired hours for the pump to run before the change/level LED is activated. The built-in signal repeater allows the existing water meter to register its totalizing volume to an environmental controller.

The S128 Medicator is equipped with highly chemical resistant components, 3/8" suction and discharge tubing and a durable ball and spring check valve.

Features

- Advantages of Stenner peristaltic pumps on page 1
- Tube replacement without tools
- Even distribution of solution with 3 automatic speeds

ECON STENNICATOR

Potentiometer

ECON STENNICATOR Meter Systems - Single and Dual

ECON Tank System

[Watch Animated Video](#)
Econ Stennicator
on a Poultry Farm
www.stenner.com

Quick Facts

- 2.7 ounces per minute, pressures to 80 psi maximum
- 1 or 10 PPG and 1 PPL water meter pulse settings
- Repeater relay
- Standby setting
- Wall adapter power supply

Compact and Water Meter Activated

The Econ Stennicator injects solution at a fixed ratio of 1:128. The pulse from the water meter activates the pump at a fixed run time to deliver the proper dosage. The pump has three pulse settings, adjustable with a potentiometer, to accommodate 1 or 10 pulses per gallon or 1 pulse per liter. The pump's relay repeats the incoming meter signal to another Stennicator, controller or device. Additional features include an on/off switch, prime and a standby setting.

Not a Traditional Medicator for Livestock Water

The Stennicator, Stenner's peristaltic medicator, is not a typical 1:128 water driven proportional pump. The pump injects directly into the water line eliminating a water bypass that can restrict water flow to the drinker lines. Poor water quality, scale and solids are not harmful to the pump. The Stennicator is compact with a small footprint and can adapt to an existing pulse water meter. If utilizing a house controller, the pump's relay allows the water meter to send the signal to the controller to register the water consumption. The pump can accurately inject or be placed in standby, without interrupting the water meter signal.

Stennicator Meter System or Tank System

For convenient and quick installations or turnkey operations, the Stennicator Meter System is equipped with the pump and corresponding dry contact 3/4" or 1" water meter mounted on a heavy duty panel.

The pre-assembled Tank System is equipped with the pump mounted to a 7.5, 15 or 30 gallon capacity tank. Select UV Gray for outdoor installations or translucent white.

Features

- Advantages of Stenner peristaltic pumps on page 1
- Tube replacement without tools
- Activate multiple pumps from one meter
- No water restriction or pressure loss
- On/off switch
- Brushless motor
- Enclosed housing
- cULus for indoor/outdoor use

ECON INTEGRATOR™

Control Panel

ECON INTEGRATOR™ Meter System

ECON Tank System

Three Operating Modes

SECONDS: The pump can accept a dry (non-voltage) contact signal and will run for a set **time** in response to receiving the signal. There are five pump operating time ranges; the maximum time is displayed on the control panel. The run time is adjustable from 10% to 100% in 1% increments.

1 second = 0.1-1.0 5 seconds = 0.5-5.0 10 seconds = 1.0-10.0
20 seconds = 2.0-20.0 60 seconds = 6.0-60.0

FLOW SWITCH: The pump can accept a dry (non-voltage) contact signal from a 2 wire flow switch and will run at the set **speed** as long as it receives the dry contact. The pump speed is adjustable from 10% to 100% in 1% increments.

AUXILIARY: The pump can accept a 12-24 VAC/VDC signal from control equipment that responds to flow and will run at a set **speed** for as long as it receives the signal. The pump speed is adjustable from 10% to 100% in 1% increments. The repeater relay does not work with a 12-24 VAC/VDC signal.

Quick Facts

- Outputs of 0.049-30.0 gpd, pressures to 80 psi maximum
- Digital keypad with LCD display
- 10:1 turndown, 1% increments
- Flow activated with internal relay
- Wall adapter power supply

Proportional Pump with Repeater Relay

The Econ Integrator™ is a flow activated peristaltic pump featuring three operational modes and a repeater relay. The relay provides a dry contact output signal replicating the signal the pump receives. The signal output can control another device that accepts a dry contact signal such as another Econ Integrator™. Multiple pumps can be activated by one water meter. The relay is operable in the Seconds or Flow Switch mode.

In livestock operations, the relay is especially useful when an existing water meter is utilized to tally water consumption to a controller. The relay allows the meter to send a signal to the pump and to the controller; eliminating the need for another meter. The signal can be sent if the pump is operating or in standby.

Econ Integrator™ Meter System or Tank System

For convenient and quick installations or turnkey operations, the Econ Integrator™ Meter System is equipped with the pump and corresponding dry contact 3/4" or 1" water meter mounted on a heavy duty panel.

The pre-assembled Tank System is equipped with the pump mounted to a 7.5, 15 or 30 gallon capacity tank. Select UV Gray for outdoor installations or translucent white.

12	1" 2 pulses/gallon											
14	1" 4 pulses/gallon											

Tank System and Meter System are two separate systems and not sold as one.

NOTE: Duckbill check valve included with pumps rated 80 psi (5.5 bar) maximum.

NOTICE: The information within this chart is solely intended for use as a guide. The output data is an approximation based on pumping water under a controlled testing environment. Many variables can affect the output of the pump. Stenner Pump Company recommends that all metering pumps undergo field calibration by means of analytical testing to confirm their outputs.

ECON TIMER SERIES

Programmable Timer 24 Hour-7 Day

ECON T TANK SYSTEM

Features

- Advantages of Stenner peristaltic pumps on page 1
- Digital control pad with LCD display
- Programmable 24 hour clock
- Patented quick release pump head
- Tube replacement without tools
- Enclosed housing
- Wall mountable

Automatic Dosing Control for Timed Applications

The Econ T and TD pumps provide automatic injection and offer flexibility to program a customized dosing schedule for light duty applications. Program up to 24 independent On and Off events within a 7 day period. Each event can be set for a specific On and Off time for each selected day or days of the

week. The timer is programmed in hour and minutes increments. A battery is included as back-up to power loss to maintain the time and programmed events.

Quick Facts

ECON T

- 0.22–1.33 oz/min, pressures to 25 psi maximum
- 0.05–1.92 oz/min, pressures to 80 psi maximum
- Santoprene® pump tube
- Wall adapter power supply
- Optional mounting accessories
- Available as a Tank System

ECON TD

- 0.81–3.18 oz/min, pressures to 5 psi maximum
- FKM pump tube for d-Limonene
- Wall adapter power supply
- Indoor/outdoor use
- Optional mounting accessories

ECON TD Battery-Powered

- 2.2–4 oz/min, pressures to 5 psi maximum
- FKM pump tube for d-Limonene
- Silicone pump tube
- 8 D cell batteries 1.2V–1.5V or 2 6V lantern batteries, not included
- Indoor use
- Wall mountable only

ECON TD Electric

ECON TD Battery-Powered

ECON TIMER SERIES

Applications

ECON T

- Biocide feed for Legionella prevention in small cooling towers
- Sanitation for water fountains
- Injection of liquid solar blankets or enzymes for commercial pools
- Injection for scale and algae control in poultry evaporative cool cells
- Disinfection of poultry hatchery dip tanks

ECON TD

The Econ TD pumps are an extension of the Econ T programmable timer series designed for 5 psi or less. Timed applications such as commercial drain line maintenance, grease trap treatment or odor control installations are some of the possibilities. Unlike the Econ T, both TD pumps offer an FKM tube for d-Limonene. The Econ TD battery-powered pump offers a silicone pump tube option and is the only pump in the Econ line with a blue roller assembly.

Accessories Shipped with Each Pump

ECON T

- 3 Connecting nuts 1/4"
- 3 Ferrules 1/4" or 6 mm *Europe*
- 1 Duckbill check valve 80 psi (5.5 bar) maximum or 1 injection fitting 25 psi (1.7 bar) maximum
- 1 Weighted suction line strainer 1/4" or 6 mm *Europe*
- 1 20' Roll suction/discharge tubing 1/4" white or 6 mm white *Europe*
- 1 Additional pump tube
- 1 Manual

OEM

Stenner's custom OEM pump can be designed with the customer's supplied motor and gearbox. A standard OEM bracket is provided, or a custom bracket can be designed. The pump is offered with a brushless or brushed DC motor, and as an open or enclosed version.

Enclosed versions offer an optional internal power supply and customizable power cord for 100-240VAC, 50/60Hz. The customer selects the fixed output from ranges of 0.04 ounces per hour to 2.08 gallons per hour, up to 80 psi (1.3 milliliters per hour to 7.88 liters per hour, up to 5.5 bar).

OEM BATCH

On/Off Switch

The custom OEM batch pump is factory programmed to run a specific length of time when manually activated by an integral switch or can be designed to activate with an input signal. The customer selects the pump run time from 0.1 seconds to 24 hours per activations.

The pre-set fluid volume choices are up to 50 gallons per day, up to 80 psi (189.3 liters per day, up to 5.5 bar). The pump is supplied with a 24VDC brushless motor and a customizable power cord for 100-240VAC, 50/60Hz. The pump can also be supplied without an internal power supply.

Quick Facts

- 0.04-8.1 oz/hr, pressures to 80 psi maximum
- Adjustable potentiometer
- Select custom color
- Optional tube materials
- Dual bearing support output shaft
- Serviceable liquid end, gear train & motor
- Agency approvals available
- Voltage options

ECON LD

Potentiometer

ECON Tank System

Quick Facts

- 0.04-50.7 oz/hr, pressures to 80 psi maximum
- Adjustable potentiometer
- 50:1 turndown

Features

- Advantages of Stenner peristaltic pumps on page 1
- Patented quick release pump head
- Tube replacement without tools
- Brushless motor
- Enclosed housing
- Optional mounting accessories available
- Tank System ships with pump pre-mounted to the tank
- cULus for indoor/outdoor use
- CE listed, varies by model
- NSF 61 & 372

Accurate Low Volume Metering

The Econ LD is a precise, compact variable speed peristaltic pump designed for metering low volumes when reliability and accuracy are a must. Ideal for pumping flocculants, coagulants, sanitizers, and a variety of solutions. The quiet, long lasting brushless motor, in a totally enclosed housing, offers premium quality in a compact pump.

The design incorporates the latest microprocessor technology with a simple potentiometer control and on/off switch. The potentiometer has a 50:1 turndown offering a wide range of outputs. Adjusting the potentiometer clockwise gradually increases the pump speed to 100%. Turning the potentiometer fully counterclockwise turns the pump off.

ECON VX – Variable Speed

- Adjustable potentiometer
- 0.8 to 38.8 gpd, pressures to 25 psi maximum
- 1.7 to 23.5 gpd, pressures to 80 psi maximum

Features

- Advantages of Stenner peristaltic pumps on page 1
- Patented quick release pump head
- Tube replacement without tools
- Enclosed housing
- Wall mountable
- Optional mounting accessories

Reliable Accurate Metering

Both the Econ VX and FX are peristaltic pumps designed with a totally enclosed brushed motor for light duty or general intermittent applications. The pumps work well for fluid transfer, sampling or injecting a variety of solutions for swimming pools, food & beverage, metal finishing, irrigation and horticulture and more.

The pumps are wall mountable or select one of the optional mounting accessories. The Econ VX or FX is offered as a Tank System; the pump is shipped pre-mounted to a 7.5, 15 or 30 gallon solution tank. The pumps are cULus for indoor and outdoor use; CE IP44 is also available.

* Values for flow switch, observe maximum values of PVC slip fit tee or maximum values of copper pipe.

How It Works

In residential or light commercial applications, water treatment professionals can use a metering pump activated by a flow switch for applications such as disinfection, oxidation or pH adjustment. Stenner offers a dry contact, two wire flow switch for a PVC tee or copper pipe. Both are a paddle style with glass fiber reinforced plastic construction. The design uses a magnetic force to reset the paddle to eliminate spring fatigue. Stenner's Econ FP or Econ Integrator™ pumps are designed to interface with a two wire flow switch that accepts a dry contact.

Features

The flow switch for PVC includes a glue-in adapter for easy mounting to a standard PVC slip fit tee. The flow switch for copper has an adapter for soldering to copper pipe. The nominal activation points are based on installation into a Spears 3/4" or 1" schedule 80 PVC tee or an industry standard, smooth 3/4" or 1" copper pipe. The activation points are 1.2 gallons per minute for 3/4" and 1.9 gallons per minute for the 1" flow switch. A wiring harness is included with the Econ FP and the Econ Integrator™ for an easy connection to the dry contact flow switch.

FLOW SWITCH

Plastic Water Meter

Flow Rates*

SIZE	FLOW RATE GPM	PULSES PER GALLON			
3/4"	0.25 to 22	1	2	4	10
1"	0.75 to 50	1	2	4	10
1 1/2"	2.0 to 100	1	2	4	n/a

* Continuous Flow: The meter size should be selected based upon continuous flow, gpm, as opposed to pipe size.

Specifications

Accuracy $\pm 2\%$ when operating between minimum and maximum flow range

Temperature Range 35-122°F (1.7-50°C)

Pressure Ratings 15-100 psi (1.0-6.9 bar)

Maximum Current 20mA

Maximum Voltage 24VDC or 24VAC

Sensor Reed Switch

Cable Length 6 ft (1.8 m)

Materials of Construction

Body** Engineered reinforced plastic (nylon)

Internal Engineered thermoplastic

Magnet Alnico

** 1 1/2" meter may include plastic or lead free stainless steel couplings.

How It Works

The plastic water meter doesn't require power and utilizes a reed switch to provide a pulsing dry contact signal. The meter is certified by IAPMO to ANSI/NSF 372, low lead.

The 3/4" or 1" meter is included with the Econ Meter Systems. The 3/4" meter is included with the Proportional Injection System. Purchase the meter and other components separately to create your own proportional feed installation.

How It Works

The vertical positive displacement, oscillating piston, water meter doesn't require power and utilizes a reed switch to provide a pulsing dry contact signal. Although designed for vertical installation, the meter can be installed horizontally or on an incline, provided the meter remains full of water. The meter has a built-in back flow preventer and is housed in an engineered plastic with corrosion resistant liquid-sealed register for easy reading.

How It Works

The Tank System consists of a tank and pump. The system is factory assembled with your pump choice: Classic single head adjustable or fixed or Econ, and your tank choice: 7.5, 15, 30 gallon, in white or UV resistant gray.

Features

- Pump is vertically mounted for solution containment
- Child resistant lid
- Polyethylene construction is lightweight and rugged

- Rain Roof (Classic Series only)
- Vertical mount over containment basin
- Child Resistant Lid
- Level Indicators

How It Works

The PCM is a time adjustable controller utilized with the Classic Series Single Head Fixed Output Pump and a pulsing dry contact water meter for applications requiring proportional injection. The water meter sends a signal to the PCM and the PCM actuates the pump to deliver the desired dose based on water volume. The PCM is a component in Stenner's Proportional Injection System.

Features

- Chemical resistant ABS plastic housing
- On-time duration set with knob adjustment with locking feature
- 10' power cord and jacketed signal input cable

Customize Your Own Proportional Feed Installation

Purchase a Classic Series Single Head Fixed Output Pump, a PCM and water meter to create your own proportional feed installation.

Interchangeable Operating Range Settings

The PCM's operating range can be converted by changing the position of the jumpers on the circuit board so another model doesn't have to be purchased.

Weights and Dimensions

Shipping Weight 2.1 lbs (1 kg)

Box Dimensions 9 x 9 x 7 in. (23 x 23 x 18 cm)

1.0 to 10.0 Seconds	PCM10
2.0 to 20.0 Seconds	PCM20

Proportional Injection System

Proportional Metering in a Pre-Assembled System

The Proportional Injection System injects solution in proportion to the system's flow rate based on water volume. The water meter sends a signal to the PCM which actuates the pump. Components are pre-mounted to a heavy duty panel for quick installation and convenient equipment accessibility.

The system is suited for constant pressure (variable speed) well pumps, poultry and livestock houses, irrigation, systems with demand based backup wells and any application with varying flow rates.

Components

- 1 Classic Series Single Head Fixed Output Pump
- 2 PCM
- 3 Plastic 3/4" dry contact water meter, certified by the Water Quality Association to ANSI/NSF 372, low lead
- 4 Flow Indicator to confirm pump is operating
- 5 Filter with 30 and 100 mesh screens
- 6 Unions for easy installation and removal
- 7 Cabinet keeps cords and wires contained
- 8 Heavy duty panel and wall mounting bracket

MOTOR PARTS *INTERNATIONAL*

	DESCRIPTION	WORKS WITH	EA	10-PK	24-PK
11	Coil 50Hz 230V	All Classic Pumps	MP6J223	—	—
	Coil 50Hz 250V	All Classic Pumps	MP6J222	—	—

MOTORS

MOTOR PARTS

	DESCRIPTION	WORKS WITH	EA	10-PK	24-PK
1	Drive Assembly Pad	All Econ Pumps excluding Econ TD Battery	EC302	—	—
2	Gear Kit includes spacers, screws and AquaShield™	All Econ Pumps with E10 prefix	EC310	—	—
	Gear Kit includes spacers, screws and AquaShield™	All Econ Pumps with E20 prefix	EC320	—	—
3	Gear Case Front Cover w/ Pump Head Cover	All Econ Pumps	EC330	—	—
4	Cover Screw B	All Econ Pumps	—	UCCPS0B	MCCPS0B

Mounting Kit

Stand

OPTIONAL MOUNTING ACCESSORIES

DESCRIPTION	WORKS WITH	EA	KIT
Mounting Kit (for wall mount or Stenner tank)	All Econ Pumps excluding Econ TD Battery	—	EC303
Stand (for horizontal display or wall mount)	All Econ Pumps excluding Econ TD Battery	EC304	—

FEED RATE CONTROL

FEED RATE CONTROL PARTS

	DESCRIPTION	WORKS WITH	EA	2-PK	5-PK
1	FRC Screw A	Classic Adj. 45, 85, 100, 170	FCS000A	—	—
2	Feed Rate Mounting Plate	Classic Adj. 45, 85, 100, 170	FC5N000	—	—
3	Dial Ring	Classic Adj. 45, 85, 100, 170	FC5M040	—	—
4	Variable Cam	Classic Adj. 45, 85, 100, 170	—	UCFC5H0	MCFC5H0
5	Index Pin Lifter	Classic Adj. 45, 85, 100, 170	—	UCFC5L1	MCFC5L1
6	Index Pin Holder	Classic Adj. 45, 85, 100, 170	FC5L003	—	—
7	Index Pin Spring	Classic Adj. 45, 85, 100, 170	FC5L005	—	—
8	Index Pin	Classic Adj. 45, 85, 100, 170	FC5L002	—	—
9	Index Pin Assembly with Lifter includes 5, 6, 7 & 8	Classic Adj. 45, 85, 100, 170	UCFC5AY	—	MCFC5AY
10	Index Spider	Classic Adj. 45, 85, 100, 170	FC5K00D	—	—
11	Index Spider Assembly includes 9 & 10	Classic Adj. 45, 85, 100, 170	FC5LAS	—	—
12	Index Plate	Classic Adj. 45, 85, 100, 170	UCFC5ID	MCFC5ID	—
13	Feed Rate Housing with Roller Clutch, Seal & Rivets	Classic Adj. 45, 85, 100, 170	FC5D00S	—	—
14	Mounting Rivet C	Classic Adj. 45, 85, 100, 170	FCS000C	—	—
15	Main Shaft	Classic Adj. 45, 85	UCFC5AD	MCFC5AD	—
16	Main Shaft	Classic Adj. 100, 170	DM5A00D	—	—

FEED RATE CONTROL WITH SHAFT

WORKS WITH	EA
Classic Adj. 45, 85, 100, 170	FC5040D
Classic Adj. 100, 170	DM5040D

FEED RATE CONTROL SERVICE KITS

WORKS WITH	KIT
Classic Adj. 45, 85, 100, 170	FSK100

WATER METER PARTS

WATER METER PARTS

DESCRIPTION	WORKS WITH Plastic Water Meter	EA	2-PK
3/4" Plastic Couplings with Gaskets	3/4"	—	JLP38009P
1" Plastic Couplings with Gaskets	1"	—	JLP38012P
1/8" Rubber Gaskets for 3/4"	3/4"	—	JLP38007R
1/8" Rubber Gaskets for 1"	1"	—	JLP38012R
Reed Switch, Single with screw	1 PPG, 4 PPG, 10 PPG	JLP32RS	—
Reed Switch, Dual with screw	2 PPG	JLP34RS	—
	WORKS WITH Plastic and Stainless Steel Water Meter		
Reed Switch, Single with screw	1 PPG, 4 PPG, 10 PPG	JLP32RS	—
Reed Switch, Dual with screw	2 PPG	JLP34RS	—

CHEMICAL RESISTANCE GUIDE

Ratings Key – Chemical Effect

- A** Fluid has minor or no effects
- B** Fluid has minor to moderate effects
- C** Fluid has severe effects
- No data available

CAUTION

The information is provided ONLY as a guide to assist in determining chemical compatibility for wetted components. Testing under the specific conditions of the application is recommended. Stenner Pump Company assumes no responsibility for its accuracy. Outside factors including but not limited to temperature, pressure, mechanical stress, and solution concentration can affect material compatibility in a particular application. Stenner makes no warranty, expressed or implied, as to the accuracy of this guide or any materials' suitability for fitness or purpose for any application. User assumes all risk and liability for use of this guide.

POLICIES

Limited Warranty

Stenner Pump Company will for a period of one (1) or two (2) years from the date of purchase (proof of purchase required) repair or replace – at our option, all defective parts. Stenner is not responsible for any removal or installation costs. Pump tube assemblies and rubber components are considered perishable and are not covered in this warranty. Pump tube will be replaced each time a pump is in for service, unless otherwise specified. The cost of the pump tube replacement will be the responsibility of the customer. Stenner will incur shipping costs for warranty products shipped from our factory in Jacksonville, Florida. Any tampering with major components, chemical damage, faulty wiring, weather conditions, water damage, power surges, or products not used with reasonable care and maintained in accordance with the instructions will void the warranty. Stenner limits its liability solely to the cost of the original product. We make no other warranty expressed or implied.

Returns

Stenner offers a 30-day return policy on factory direct purchases. Except as otherwise provided, no merchandise will be accepted for return after 30 days from purchase. To return merchandise at any time, call Stenner at 800.683.2378 for a Return Merchandise Authorization (RMA) number. A 15% restocking fee will be applied. Include a copy of your invoice or packing slip with your return.

Problem with Shipment

Check orders immediately upon arrival. Any claim of damage, shortage or order discrepancy must be noted on the delivery receipt and reported to Stenner at 800.683.2378 within seven (7) days of receipt.

Pump Service & Repairs

Before returning a pump for warranty or repair, remove chemical from pump tube by running water through the tube, and then run the pump dry. Following expiration of the warranty period, Stenner Pump Company will clean and overhaul any Stenner metering pump for a minimum labor charge plus necessary replacement parts and shipping. All metering pumps received for overhaul will be restored to their original condition. The customer will be charged for missing parts unless specific instructions are given. To return merchandise for repair, call Stenner at 800.683.2378 or 904.641.1666 for a Return Merchandise Authorization (RMA) number.

Disclaimer

This information is not intended for specific application purposes. Stenner Pump Company reserves the right to make changes to prices, products, and specifications at any time without prior notice.
